If you disagree with either the diagnosis or treatment
 prescribed by your doctor, you may ask for a second
 opinion from another doctor within the MPN. If you
 want a second opinion, you must contact the MPN
 Contact or your claims adjuster and tell them you
 want a second opinion.

MPN should give you at least a regional or full
 provider list from which you can choose a
 opinion doctor. To get a second opinion, you
 must choose a doctor from the MPN list and make an
 appointment within 60 days. You must tell the MPN
 of your appointment date, and the MPN will
 the doctor a copy of your medical records. You
 must request a copy of your medical records that
 are sent to the doctor.
