

Web Outreach Portal

Introduction:

The Avalon LIS Web Outreach Portal is an innovative website that provides our valued clients and doctors with the ability to enter and/or review orders and results right on the web. It uses a friendly graphical user interface allowing designated users to utilize all of the portals components quickly and easily.

Client Outreach Portal

Laboratory Name

Welcome to the Computer Service & Support Web Result Interface.
Please enter your credentials to review your result reports.

Unauthorized access or use of Computer Service & Support Outreach Portal may result in disciplinary action and civil or criminal liability. All information transmitted by, received from, or stored in this system is property of Computer Service & Support and is to be used solely for Computer Service & Support business purposes.

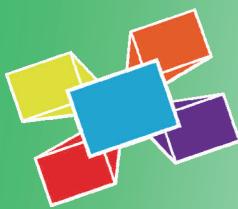

Computer Service & Support may monitor, intercept, access and disclose all usage, consistent with Company policy and applicable law. Users have no right of privacy in this system or in the information accessed through it. Use of this system constitutes consent to these terms.

Logging In

Logging in to your Outreach Portal is a simple and secure procedure. Simply navigate to the website provided by the laboratory and enter into the field your Email Address and Password. Once all of your login credentials are entered select the 'Login' button to continue.

There may be many users accessing the same outreach portal at anytime, but the administrator(s) has the power to grant and revoke the other user's privileges. The administrator(s) is able to add, edit and remove users from the portal, and for this reason the amount of administrative users should be very limited.

Web Outreach Portal

Administration

Once you login, you will see the administration screen. By clicking on the Site Admin button on the upper left of the screen, you will bring up the User Administration Menu. This main menu contains all of the administrative functions you will need to manage your users. As you click through each selection, you can see how each one breaks down to give you the elevated functionality.

As an Administrator the user can perform many tasks that are not available to a standard user. Administrators are able to add new users to the portal, edit existing users, and setup client specific features.

- Site Admin
- View Users
- Add User
- View Web Log

Add User

Email:	User Type:
this will be used to log into your web portal	Please select the type of user
Password:	Re-Type Password:
enter user's password here	please re-type the user's password
<input type="button" value="Cancel"/> <input type="button" value="Submit"/>	

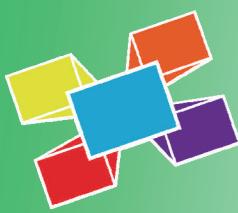

Adding Users

To add a new user, you must first select Add User from the Site Admin menu. After selecting the Add User option, a new window will open displaying all of the required fields that must be populated regardless of what type of user is being added. Selecting Add Client will open a new prompt that asks for the new client's information. In the add client window all fields are required, so they must all be filled in completely and correctly. After all fields are completed you can then click the Submit button to finalize the operation or click Cancel to close the window without saving any changes. (Shown Below)

Add User

Email:	User Type:
this will be used to log into your web portal	Client
Password:	Re-Type Password:
enter user's password	please re-type the user's password
<input type="checkbox"/> Has Statistics: <input type="checkbox"/> Has Cumulative: <input type="checkbox"/> Has Order Entry: <input type="checkbox"/> Has Multi User: <input type="checkbox"/> Has Abnormals Report: <input type="checkbox"/> Has Positive Tests Report:	
Please begin typing in the form fields below to search for the appropriate client. The results will begin to appear as you type:	
Client Name:	Client Number:
client's name	client's number
Address:	City:
client's address	client's city
State:	Zip:
client's state	client's zip
<input type="button" value="Cancel"/> <input type="button" value="Submit"/>	

Web Outreach Portal

Adding Users Cont.

You can select between multiple user from the User Types drop down box. (Shown) The new user can be another Administrator, a Client, a Doctor, an Insurance, or a Sales Person. In addition to all of the required fields that must be populated there are check boxes that allow for modification of user specific features depending on your selection.

Add User

Email:	User Type:
this will be used to log into your web portal	Doctor
Password:	Re-Type Password:
enter user's password	please re-type the user's password
Has Statistics: <input type="checkbox"/> Has Cumulative: <input type="checkbox"/> Has Order Entry: <input type="checkbox"/> Has Abnormals Report: <input type="checkbox"/> Has Positive Tests Report: <input type="checkbox"/>	
Please begin typing in the form fields below to search for the appropriate doctor. The results will begin to appear as you type:	
Doctor Name:	Doctor Number:
doctor's name	doctor's number
Address:	City:
doctor's address	doctor's city
State:	Zip:
doctor's state	doctor's zip

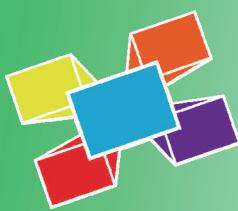

Selecting Add Doctor will open a new prompt that asks for the new doctor's information. In the add doctor window all fields are required, so they must all be filled in completely and correctly. This is nearly identical to the way you would add a new client.

The client selected will be associated with the doctor to be added, but this can changed later on if the doctor's clientele changes by editing the user. After all fields are completed you can then click the Submit button to complete the operation, or click the Cancel button to exit the operation. (Shown Below)

Add User

Email:	User Type:
this will be used to log into your web portal	Sales Person
Password:	Re-Type Password:
enter user's password	please re-type the user's password
Please begin typing in the form fields below to search for the appropriate sales person. The results will begin to appear as you type:	
Sales Group:	Sales Person Name:
sales person's group	sales person's name
Group Leader:	Territory:
the sales group's leader	the sales person's territory
Address:	City:
sales person's address	sales person's city
State:	Zip:
sales person's state	sales person's zip

Web Outreach Portal

Adding Users Cont.

Selecting Add Insurance will open a new window that asks for the new insurance's information. In the add doctor window all fields are required, so they must all be filled in completely and correctly. This is nearly identical to the way you would add a new client. (Shown Below)

The option to add an insurance may not be available to every administrator. If add Insurance is not on the User Type drop down box navigate to the home screen and select Edit for the user that you are currently using. One of the checkboxes in the edit administrator screen is labeled Can Manage Insurance Users. This must be selected in order to add/edit insurances. By default this option is only available to the first administrator for security.

Add User

Email:	User Type:
this will be used to log into your web portal	Insurance
Password:	Re-Type Password:
enter user's password	please re-type the user's password
Please begin typing in the form fields below to search for the appropriate insurance. The results will begin to appear as you type:	
Insurance Name:	Phone Number:
The company's name	The company's phone number
Address:	City:
The company's address	The company's city
State:	Zip:
The company's state	The company's zip

Has Statistics: <input type="checkbox"/> Has Cumulative: <input type="checkbox"/> Has Order Entry: <input checked="" type="checkbox"/> Has Order Entry: <input checked="" type="checkbox"/> Has Multi User: <input type="checkbox"/> Has Abnormals Report: <input type="checkbox"/> Has Positive Tests Report: <input type="checkbox"/>	When adding a new client a series of checkboxes will appear on the right hand side of the screen. These boxes correlate to functions that will be available to the new client. If the Has Order Entry box is selected new items will be added to the window. (Shown Below)
Common Diagnosis Codes Code Description	Selected Common Diagnosis Codes
Common Tests Test Name Test Number	Selected Common Tests:
Excluded Tests Test Name Test Number	Selected Excluded Tests:

Web Outreach Portal

Managing Tests

After selecting the checkbox, you will be prompted with a new set of fields displaying Common Tests, Common Diagnosis Codes, and Exclude Tests. If you add a list of Common Tests or Common Diagnosis Codes to a user the client will then be able to check off the tests to be added to their orders, rather than searching for each test one at a time. You can also add Exclude Tests to a client to exclude them from their orders. After all test to be excluded are selected, you can simply click the Submit button to finalize the process. Excluded tests will no longer show up in a client's test search when they log in to review their order.

Common Tests			
Test Name	Department	Specimen Type	Test Number
r			
Test Name (#)	Department	Specimen Type	
RBC (10001)	Hematology	Whole Blood	
RBC Count (40001)	*Quest	Whole Blood	
RDW (10007)	Hematology	Whole Blood	
RDW (200055)	*Quest	Whole Blood	
RDW (40007)	*Quest	Whole Blood	
Reactive Lymphocytes (40092)	*Quest	Whole Blood	
Red Blood Cell Count (200050)	*Quest	Whole Blood	
Red Cedar (T211) (1337)	Allergy	Serum	

Selected Common Tests:			
Test Name	Department	Specimen Type	Remove
WBC (10000)	Hematology	Whole Blood	
Lipid Panel w/ D-LDL (1050)	Chemistry	Serum	

Common Tests & Diagnosis Codes

After selecting the client you will then be able to add Common Tests or Common Diagnosis Codes for the client, either by searching for them by Name or Number. If you want to add Common Tests you can start to type the name or number of the test into the fields and a list of the available choices will be displayed based on what has been typed into the field. You can then add all of the common tests on a per client basis. This functionality works the same way for Common Diagnosis Codes and Excluded Tests. Once all tests are found you can click Submit to save the client's information.

Common Diagnosis Codes		
Code	Description	
t		
Code	Description	
00.0	THERAPEUTIC ULTRASOUND

Site Admin ▾

Editing Users

From the main screen of the portal the administrator that is currently logged in can see a list of all existing clients and administrators they have control over. The clients number, name, address, and email are displayed along with the options to Delete or Edit. Under the Action column you can also turn a user on or off by selecting clicking the button with the power icon on it. This will turn the button grey until they are turned back on which will turn the button green again.

Has Multi User: <input type="checkbox"/>	
Has Abnormals Report: <input checked="" type="checkbox"/>	
Has Positive Tests Report: <input checked="" type="checkbox"/>	

Web Outreach Portal

Common Tests

This is where you can select the tests to be excluded from the order or the common tests to be added to the order. After selecting the checkbox, you will be prompted with a new set of fields displaying Common Tests, Common Diagnosis Codes, and Exclude Tests. You can add Exclude Tests to a client to exclude them from their orders. After all test to be excluded are selected, you can simply click the Submit button to finalize the process. Excluded tests will no longer show up in a client's test search when they log in to review their order.

Has Order Entry:

Common Tests Codes Example

Selected Common Tests:

Test Name	Department	Specimen Type	Remove
WBC (10000)	Hematology	Whole Blood	
Lipid Panel w/ D-LDL (1050)	Chemistry	Serum	

Common Diagnosis Codes Example

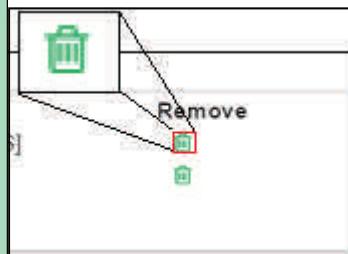

Selected Common Diagnosis Codes

Code	Description	Remove
00.3	COMPUTER ASSISTED SURGERY [CAS]	
00.1	PHARMACEUTICALS	

Excluded Tests Example

Selected Excluded Tests:

Test Name	Department	Specimen Type	Remove
Opiates (22)	Toxicology	Urine	
Benzodiazepines (1610)	Toxicology	Saliva	

If a test needs to be removed from the user, the client must click the Trashcan Icon next to the test they wish to be removed. (Shown Right)

Abnormals Report

Start Date: 03/15/2015 End Date: 04/15/2015

Order By: Log Date

Direction: Ascending

Submit

Shown in the screen above are the parameters that are displayed to run the Abnormals Report. The user must enter the Start and End dates as well as the result ordering preferences.

The Abnormals Report can be sorted by Log Date, Lab User, Outreach User, User Type, and Log Type.

The user also has the option of choosing the direction of the ordering.

Direction:

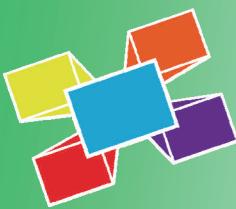

- Ascending
- Descending

Due to inactivity, you will be automatically logged out in
26 seconds

Please [click here](#) to remain logged in.

The dialog shown on the left will be displayed if the Outreach Portal is left open on the web browser for more than a couple minutes without use. This dialog contains a timer giving the user 30 second to click on the button to continue the session.

Web Outreach Portal

Web Log Cont.

The Abnormals Report contains parameters for the user to enter that are very similar to the other reports that can be found on the Outreach Portal. Shown in the screen shots are the available parameters that are given to the user to run the Abnormals Report. The user must enter the Start and End dates as well as the result ordering preferences.

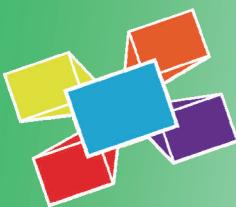

The screenshot shows a user interface for selecting a start date. A text input field displays "01/30/2015". To its right is a small calendar icon. Below this is a calendar grid for January 2015. The date "30" is highlighted with a dark gray box, indicating it is the selected date. The calendar includes labels for the days of the week (Mo-Su) and the dates from 01 to 31. At the bottom of the calendar are buttons for "Today" and "Clear date".

When running reports the user can utilize the calendar icon next to the Date Range fields. This icon will pop up a dynamic calendar for the user to quickly select the value they wish to enter into the field.

The user can easily search through days, months, and years. Once a day is selected on the calendar it is automatically entered into the field it is associated with.

The Abnormals Report can have its results ordered by Patient First Name, Patient Last Name, Accession Number, and Test Name. The user also has the option of choosing the direction of the result sorting. The results can be sorted Ascending or Descending based on the 'Order By' parameter chosen.

Web Outreach Portal

The Abnormals Result Report displays the Accession, Patient Name, Test Name, Date Reported, and the Abnormal Flag that the result produced while being resulted. The Abnormal Flag can be Abnormal, Abnormal Low, Abnormal High, Abnormal CID Low, and Abnormal CID High. The Abnormal Flag is determined by the test information entered by the user for what constitutes an abnormal test result and how much variance there was between the entered number and the test result.. This report can be downloaded or printed just like the other Reports and Forms contained on the Outreach Portal.

Sorted By: Patient Last Name, Ascending
Date Reported: 05/02/2014 to 01/29/2015

Abnormals Result Report
